FIELD NOTES

ALABAMA ORNITHOLOGICAL SOCIETY

FIELD CHECKLIST OF ALABAMA BIRDS

Date: _____ Time: _____

Locality: _____

Observers: _____

Weather: _____ Total Species: _____

This field card is based on the decisions of the Bird Records Committee of the Alabama Ornithological Society as of April 2006. Sightings of species that are **boldfaced** or listed as "Hypothetical" should be reported with full written details (a Rare Bird Report, for example). *Italicized* species usually need written details, but these may be brief, listing only the diagnostic points used in the identification. Out-of-season and locally rare birds also should be documented. Reports should be submitted to Greg D. Jackson, 2220 Baneberry Drive, Birmingham, AL 35244, g_d_jackson@bellsouth.net.

Species marked as "B" are known to have bred in the state. Those listed as "Hypothetical" have sightings with acceptable documentation, but are not supported by physical evidence (specimens or photographs) or have not been verified by several experienced observers. Taxonomy follows the seventh edition of *The A.O.U. Check-list of North American Birds* (through 46th Supplement 2005).

Copies of this field card and information on membership may be obtained from the President, Alabama Ornithological Society, P.O. Box 1325, Dauphin Island, AL, 36528 or the A.O.S. website at <http://www.bham.net/aos/>.

Price per card is \$0.30, 4 for \$1.00, or 10 for \$2.00.
